Modern informatization problems in the technological and telecommunication systems analysis and synthesis (MIP-2019'AS): Proceedings of the XXIV-th International Open Science Conference (Yelm, WA, USA, January 2019)/ Editor in Chief Dr. Sci., Prof. O.Ja. Kravets. - Yelm, WA, USA: Science Book Publishing House, 2019. – 128 p. (261-388)

ISBN 978-1-62174-116-9

Proceedings summarizing the results of the XXIV-th International Open Science Conference "Modern informatization problems in the technological and telecommunication systems analysis and synthesis" (MIP-2019'AS), held in November 2018 - January 2019. It contains information within the following areas: **simulation of complex systems and engineering procedures, telecommunication systems and applications.**

Data gathered within collected papers may be useful to researchers and engineering technicians, whose work involves various aspects of modern society informatization, as well as to postgraduates and students studying subjects related to informatics and computer engineering.

Proceedings Editorial Board:

O.Ja. Kravets, Dr. Sci., Prof. (editor in chief, Science Book Publishing House, USA); **A.A. Aliyev**, Dr. Sci., Prof. (Baku State University, Azerbaijan); **S.L. Blumin**, Honored Scientist of Russian Federation, Dr. Sci., Prof. (Lipetsk State Technical University, Russian Federation); **E.V. Lebedenko**, Dr. (Academy of Federal Security Guard Service of the Russian Federation, Orel, Russian Federation); **A.D. Lukyanov**, Dr. (Don State Technical University, Rostov-on-Don, Russian Federation); **S.L. Podvalny**, Honored Scientist of Russian Federation, Dr. Sci., Prof. (Voronezh State Technical University, Russian Federation); **A.M. Vodovozov**, Prof. (Vologda State University, Russian Federation)

Authors, 2019

Preface

Dear Colleagues!

Present proceedings were published to summarize the results of the XXIV International Open Conference "Modern informatization problems in the technological and telecommunication systems analysis and synthesis" (MIP-2019'AS). The conference was held through the joint efforts of Science Book Publishing House (USA), Baku State University (Azerbaijan), Vologda State University, Lipetsk State Technical University, Don State Technical University (Rostov-on-Don), and the Academy of Federal Security Guard Service of the Russian Federation (Orel), in November 2018 – January 2019.

Proceedings contain information within the following areas: simulation of complex systems and engineering procedures, telecommunication systems and applications.

The conference was held to encourage exchange of experience between leading experts in utilization of information technologies in various spheres of science, engineering, and education. The conference followed the traditions established by its predecessors.

Representatives of leading research centers and educational institutions from some countries introduced the audience to the results of their research, which are available not only in this collected works, but on <http://www.sbook.ru/spi>.

Organizing Committee Chair,
Editor in Chief
Dr. Sci., Prof.

O.Ja. Kravets

Contents

Preface	263
Ananyan A.A., Kudryashev S.B. Organization of numerical control of the machine on the Arduino platform	264
Barabanova I.A., Kravets O.Ja. Analysis of the intermediate layer work in the three-tier architecture «client-server»	268
Bolnokina E.V., Oleinikova S.A. Software for the control system of the mechanism for the selection of the performers and their promotion	273
Bondarevsky A.S., Lebedev A.V. Pseudo control in ERP systems	277
Bronfeld G.B., Kirov D.I., Khnigina A.V. The prototype of the intelligent e-book – elinga with the knowledge base of molingas.....	283
Danilov A.D., Terekhov D.V. System modeling of the problem of designing Internet-oriented database applications	289
Domnin A.A. Comparative analysis of the models of text data representation in the task of clustering software defect records	294
Donskoy D.Yu., Lukyanov A.D., Katin O.I., Vernezi M.A. Development of automated systems for intensification of the technological process of preparation of seeds by agro-photonics methods.....	299
Fedorov D.I. Digital filtering of powerful low-frequency noise in wireless control systems.....	303
Fedosov A.I. Online survey. The advantages of online survey. Evaluation of the correctness of the response data	307
Gavrilenko A.A., Karev D.V. Selection of different sensors for the automated process of hydrotreating of diesel fuel.....	312
Gladckih D.I., Malygina Y.A. Development of a miniature manipulator of automatic cutting of samples of biological material.....	317
Gorokhov D.E., Kutsakin M.A., Goldin V.V. To the question of the development of technical offer for automated documents accounting.....	321
Kustov A.I., Sklyarov V.A. Limitations of the method of photostimulated luminescence when studying the properties of luminescence centers and the localization of nonequilibrium carriers in ion-covalent crystals	325
Lapko A., Altunin I. The problem of selecting a DBMS for Astra Linux operating system	330
Lebedenko E.V., Skryabin I.G. To the question about functional modeling of the process configuring virtualization tools “Brest” for OS Astra Linux SE.....	335
Mashkin A.V. Assessment current’s pulsations in the PWM converter-DC motor system	341
Miroshnikov A.I. The applied application creation using interval data library	346
Naumchikov A.V. Development of algorithm for the search of ferromagnetic objects in the running flow.....	350
Nguyen Thi Hien, Pham Dang Tuan. Mathematical model written by differential inclusion for a full-wave rectification circuit.....	353
Popov D.A., Sukachev A.I., Sukacheva E.A. Development of a stand-alone software and hardware complex for analyzing the technical condition of hardware units in remote mode.....	357
Shmyrin A.M., Yartsev A.G. Optimal damping for mixed control of a polyol temperature maintenance unit	361
Shornikov Yu.V., Popov E.A. Model types and specification in ISMA.....	367
Stus A.G., Bykador Zh.E. Innovative approach to optimizing the positioning of sensors with a wireless interface	371

Surkova A.S., Chernobaev I.D. Comparison of neural network architectures in the task of automatic text classification	377
Vorobiev A.A., Makeev S.M., Grushevaya E.V., Mysin O.D., Shnibaev V.V. Method of configuring modules for collection, storage and processing of big data on the basis of free software	382
Author's index	388
